Voyager Programming Video Course

Watch the provided videos and follow along on your PC with AlphaCam to learn how to Program the SaberJet CNC by clicking on each video link in the presented order:

These 3 Introduction Videos are meant for those with no or very little Computer experience:

Introduction To CAD (3 Videos) - Park Industries

The 5 CAD Drawing Videos are part of the first day of the Training Class at Park Industries.

Choose the link below to download the CAD/CAM Training Manual Drawing Packet:

Alphacam Basic CAD Drawing (5 Videos) - Park Industries

The CAD/ CAM Training manual for Current Machines - Park Industries

Drawing Lines at Angles (video) - Park Industries

Drawing Tangent Circles and Arcs (Video) - Park Industries

These Tutorials show how to prepare Sink and Laser Templates for Programming

Editing sinks using alphacam (2 Videos) - Park Industries

Cleaning up a Digital Counter Top Template (video) - Park Industries

This Tutorial shows how to Program the Voyager

BASIC Voyager XP PROGRAMMING (2 Videos) - Park Industries

This Tutorial shows how to Apply Miters (You will not need Miters Part 3 for the Voyager)

How to Miter with Park Industries CNC Saws

Advanced/Extra Voyager Programming Methods

Setting up a Blade on CNC saws including for "ultra compact" materials - Park Industries

Spacing Parts to Reduce Second Tooling Operations (Video) - Park Industries

Ordering Saw Cuts for Improved Parts Hold Down (Videos) - Park Industries

Restoring Ribbon Tabs & Keyboard Shortcuts (Video) - Park Industries

Adding a Tight Cut - Voyager (Video) - Park Industries

Using Park and Pause (video) - Park Industries

Programming a shower pan - saber and Voyager XP - Park Industries

Profiling -Basic with Blade on a Park Industries CNC Saw (Video and Guide) Using "Cut Shape" - Park Industries

Profiling- Advanced with Blade on a CNC Saw (Video) Using "Cut Shape" - Park Industries

Programming Euro Seams on a CNC saw with a Mill/Incremental Router bit (Video) - Park Industries

A tutorial for engraving and pocketing. Titan, Voyager and Saber.

Leathering on the Voyager XP CNC Saw -Video Guide for Programming and Operations - Park Industries
