

SaberJet and Javelin Programming Video Course

Watch the provided videos and follow along on your PC with AlphaCam to learn how to Program the SaberJet and Javelin CNC SawJet by clicking on each video link in the presented order:

These 3 Introduction Videos are meant for those with no or very little Computer experience:

[Introduction To CAD \(3 Videos\) - Park Industries](#)

These 5 CAD Drawing Videos are part of the first day of the Training Class at Park Industries.

Choose the link below to download the CAD/CAM Training Manual Drawing Packet:

[Alphacam Basic CAD Drawing \(5 Videos\) - Park Industries](#)

[The CAD/ CAM Training manual for Current Machines - Park Industries](#)

[Drawing Lines at Angles \(video\) - Park Industries](#)

[Drawing Tangent Circles and Arcs \(Video\) - Park Industries](#)

These Tutorials show how to prepare Sink and Laser Templates for Programming

[Editing sinks using alphacam \(2 Videos\) - Park Industries](#)

[Cleaning up a Digital Counter Top Template \(video\) - Park Industries](#)

This Tutorial shows how to Program the SaberJet

[Basic Saberjet and Javelin Programming \(video\) - Park Industries](#)

This 3 Part Tutorial shows how to Apply and Cut Miters with both Saw and Jet

[How to Miter with Park Industries CNC Saws](#)

Advanced/Extra SaberJet and Javelin Programming Methods

[Setting up a Blade on CNC saws including for "ultra compact" materials - Park Industries](#)

[Spacing Parts to Reduce Second Tooling Operations \(Video\) - Park Industries](#)

[Restoring Ribbon Tabs & Keyboard Shortcuts \(Video\) - Park Industries](#)

[Using Park and Pause \(Video\) - Park Industries](#)

[Profiling -Basic with Blade on a Park Industries CNC Saw \(Video and Guide\) Using "Cut Shape" - Park Industries](#)

[Profiling- Advanced with Blade on a CNC Saw \(Video\) Using "Cut Shape" - Park Industries](#)

[Ordering Saw Cuts for Improved Parts Hold Down \(Videos\) - Park Industries](#)

[Ultra-compact command- guide and video - Park Industries](#)
