

# Titan CNC Programming Video Course

Watch the provided videos and follow along on your PC with AlphaCam to learn how to Program the Titan CNC by clicking on each video link in the presented order:

These 3 Introduction Videos are meant for those with no or very little Computer experience:

[Introduction To CAD \(3 Videos\) - Park Industries](#)

These 5 CAD Drawing Videos are part of the first day of the Training Class at Park Industries.

Choose the link below to download the CAD/CAM Training Manual Drawing Packet:

[Alphacam Basic CAD Drawing \(5 Videos\) - Park Industries](#)

[The CAD/ CAM Training manual for Current Machines - Park Industries](#)

[Drawing Lines at Angles \(video\) - Park Industries](#)

[Drawing Tangent Circles and Arcs \(Video\) - Park Industries](#)

These Tutorials show how to prepare Sink and Laser Templates for Programming

[Editing sinks using alphacam \(2 Videos\) - Park Industries](#)

[Cleaning up a Digital Counter Top Template \(video\) - Park Industries](#)

This Tutorial shows how to Program the Titan

[Basic Titan Programming \(2 Videos + Links\) - Park Industries](#)

This video shows how to Use the Cut Shape function in AlphaCAM

[Using Cut Shape – Basics \(Video+ Links\) - Park Industries](#)

This video explains the Lead in and Out settings needed for each type of cut

[Lead Settings for Milling out a Sink on a Titan \(Video\) - Park Industries](#)

This video shows how to Use the Cut Hole function in AlphaCAM

[Using Cut Holes \(Video + links\) - Park Industries](#)

Creating a Style in AlphaCAM

[Creating a style \(video+ Links\) - Park Industries](#)

This Video shows how to use Saved Styles to Mill out and then finish a sink correctly

[Using the Sink Cutout Toolbox in the Titan Toolbar \(Video+Links\) - Park Industries](#)

This Video shows how to use and program Part Location Pins instead of using the Laser Projector to locate part blanks on the table

[Using Part Location Pins on a Titan \(Video Guide\) - Park Industries](#)

## Advanced/Extra SaberJet and Javelin Programming Methods

[Restoring Ribbon Tabs & Keyboard Shortcuts \(Video\) - Park Industries](#)

[Adding a VACUUM Pod to the Titan Table Template \(2 Videos\) - Park Industries](#)

[Programming a Shower Pan - Titan - Park Industries](#)

[Leathering Material on the Titan CNC Park Industries](#)

[Customizing Table Templates \(2 Videos\) - Park Industries](#)

[Programming Single Slope/ Fluted Drainboard Video and Guide - Park Industries](#)

[A tutorial for engraving and pocketing. Titan, Voyager and Saber.](#)

[Reducing Blowout While Milling \(Video\) - Park Industries](#)

[Editing Lead In & Outs \(Video\) - Park Industries](#)
